WHAT YOU'LL EXPERIENCE

One Lodge. Multiple Fishing Options.

A remote lodge on the banks of the Rio Longa is your base for the full package, with shore fishing, estuary access and boat transfers to and from the river mouth.

01

Rio Longa Lodge Base

Stay at the same remote lodge on the Rio Longa throughout the package rather than moving camp each day.

02

Shore-Based Fishing

Guided shore-based fishing is included throughout your stay.

03

Estuary Boats

Boats are used for estuary fishing and as transfers to and from the river mouth.

04

Small Groups

The 7-day package is structured for groups of 4-12 guests.

05

Lodge Comforts

Three bungalows, four beds per bungalow, towels, air conditioning and Wi-Fi.

06

Meals & Drinks

Three meals per day, beers, water and soft drinks are included.

Towels and air conditioning

Connectivity

Wi-Fi available

Room allocations and the final accommodation configuration are confirmed according to group size when your booking is prepared.

CUSTOM PACKAGE QUOTE

Pricing available on enquiry

Your quote will include current selling prices and confirmed travel arrangements.

FISHING SEASONS

Choose the Season for Your Target Species

Summer: end October to June

From late October to June, stronger river flow creates prime conditions for anglers specifically targeting Tarpon.

Species listed: Tarpon, Jacks, Cubera Snapper, Threadfin, Indian Mirror Fish, Permit, Long Neck Croakers and Corvina.

Winter: June to October

From June to October, cooler water generally brings fewer fish but larger specimens, while estuary fishing remains productive as the river flow slows.

Examples listed: giant Threadfin up to 50 kg, big Cubera snapper, Kob up to 70 kg, Barracudas, Corvinas and Jacks.

Recommended Tides

Fishing often improves after a spring tide, especially when high tide falls in the early evening or early morning, with low tide around midday.

Species, fish sizes and seasonal activity vary with river, sea and weather conditions. No catch can be guaranteed.

FISHING EQUIPMENT

Recommended Spinning Gear

Fishing equipment is not included. For this fishery, we recommend the following proven setups.

3000 reel - 15 lb braid on a 9 ft rod for estuary fishing.

5000 reel - 30 lb braid on an 11 ft heavy rod; must cast 2-3 oz lures and carry a minimum of 400 m braid.

6000 reel - 50 lb braid on an 11 ft XH rod; must cast 2-4 oz lures and carry a minimum of 500 m braid.

8000 reel - 60-80 lb on a 10 ft XXH rod for targeting Tarpon from the beach, casting stickbaits, poppers, big jigheads and similar lures.

Bait Fishing

Bait rods with wire grapnel sinkers.

Pack for the fishing style you intend to do.

Bring tackle matched to your target species and fishing style. Heavier surf and Tarpon setups are recommended for anglers targeting bigger fish. We can confirm your final tackle list before travel.

FLY FISHING & LURES

Prepare for Estuary and Surf Fishing

Fly Fishing

River Tarpon range from approximately 4 kg to 30 kg. Carry both sinking and floating lines for river fishing.

For surf fly fishing, use a heavier outfit with sinking line to get the fly down and match the power of the fish.

Recommended Lures by Target Species

Jacks

Far-casting spoons 2-4 oz with medium-speed action, needle/chisel-nose plugs, dropshot and bucktail.

Threadfin

Slow-action spoons 2-4 oz, 5-7 inch dropshot, bucktail and shiversticks.

Cubera Snapper

Slow-action spoons 2-4 oz, 5-7 inch dropshot, bucktail, poppers, stickbaits, rapalas and shiversticks.

Tarpon

Slow-action spoons 2-4 oz, 5-7 inch dropshot, bucktail, poppers, stickbaits, rapalas and shiversticks.

Corvina

Slow-action spoons and plastics 2-4 oz, 5-7 inch dropshot and bucktail.
